

Neurology Clinic Letter

Dear Dr Ms Sheila Evans,

Thank you for referring Mr Karl White (DOB: 24/12/1975) to the neurology outpatient service.

HISTORY

The patient reports episodic unilateral headache with visual aura lasting 20–30 minutes followed by throbbing frontotemporal pain lasting 6–12 hours, occurring 3–4 times per month.

DIAGNOSIS

Migraine with aura (ICHD-3 criteria met)

MANAGEMENT

Sumatriptan 50 mg orally at onset

Avoid known triggers (caffeine, disrupted sleep)

Headache diary recommended

If attacks remain frequent at 3 months, consider preventive therapy with topiramate or amitriptyline.

Yours sincerely,

Dr Aaron Harrison

Consultant Neurologist
